JOURNAL OF HYDROLOGY

VOLUME 149 NOS. 1–4 CONTENTS AUGUST 1993

(Abstracted/indexed in: *Bull. Signal., Curr. Contents, Geo Abstr., Am. Geol. Inst. Bibliogr. Index Geol., and AGRICOLA database*)

Research Papers

Uncertainty in wellhead protection area delineation due to uncertainty in aquifer parameter values
K. Bhatt 1
A daily runoff simulation in semi-arid watersheds based on soil water deficit calculations
A. Karnieli and J. Ben-Asher. 9
pH, aluminium and calcium concentrations of streams draining acidic soils on calcareous till at Kershope, Cumbria
A.R. Anderson, J.K. Adamson, D.G. Pyatt and M. Hornung 27
Rates of erosion and sedimentation in the Mahanadi river basin, India
G.J. Chakrapani and V. Subramanian 39
Water chemistry of the Dhuleil aquifer (Jordan) as influenced by long-term pumpage
T.M. Abu-Sharar and O. Rimawi 49
Modelling of British rainfall using a random parameter Bartlett–ewis Rectangular Pulse Model
C. Onof and H.S. Wheater. 67
Normalization of a hydrologic sample probability density function by transform optimization
W.M. Snyder, W.C. Mills, A.L. Dillard and A.W. Thomas. 97

Special Section: Coventry Groundwater Investigation: Sources and Movement of Chlorinated Hydrocarbon Solvents in a Consolidated Sedimentary Aquifer System

Contents vi
Preface. vii
Hydrogeology of the Coventry region (UK): an urbanized, multilayer, dual porosity aquifer system
D.N. Lerner, M.W. Burston and P.K. Bishop. 111
Pollution of groundwater in the Coventry region (UK) by chlorinated hydrocarbon solvents
M.W. Burston, M.M. Nazari, P.K. Bishop and D.N. Lerner. 137
Adsorption isotherms of tri- and tetrachloroethylene by various natural solids
C. Mouvet, D. Barberis and A.C.M. Bourg 163
Migration of chlorinated hydrocarbon solvents through Coventry sandstone rock columns
A.C.M. Bourg, P. Degranges, C. Mouvet and J.P. Sauty 183
Investigation of a solvent polluted industrial site on a deep sandstone–mudstone sequence in the UK. Part 1. Site description and groundwater flow
P.K. Bishop, R. Jakobsen, E. Gosk, D.N. Lerner and M.W. Burston 209
Investigation of a solvent polluted industrial site on a deep sandstone–mudstone sequence in the UK. Part 2. Contaminant sources, distributions, transport and retardation
P.K. Bishop, D.N. Lerner, R. Jakobsen, E. Gosk, M.W. Burston and T. Chen 231
Postscript: summary of the Coventry Groundwater Investigation and implications for the future
D.N. Lerner, E. Gosk, A.C.M. Bourg, P.K. Bishop, M.W. Burston, C. Mouvet, P. Degranges and R. Jakobsen 257
